N I G H T C L U B

After a recommendation from another large industry peer, we contacted Strategic Security Solutions in order to provide our large security staff the appropriate training in compliance with Denver laws and regulations. The Denver Security Guard license has added many new training requirements. As a certified provider of this curriculum Stephen of Strategic Security was great at adapting to our demanding schedule and needs. His formidable resume lended to his wealth of knowledge on security procedures and strategy. He went above and beyond the minimum requirements and taught a comprehensive course that any business that utilizes security would find advantageous. We will continue to draw on Strategic Security to meet our Guard license prerequisites. We could not recommend Stephen and Strategic Security Solutions more favorably.

Sincerely,

Temple Nightclub Management
